

QUALITY CONTROL MANAGER

DAVID BARRIE

David Barrie is an industry leader when it comes to quality control on job sites. Mr. Barrie has over 35 years in the industry of asphalt and paving. He began as a laborer on a road crew and advanced to overseeing quality control and production for companies producing over 1 million tons of asphalt annually. Mr. Barrie has been previously contracted to present asphalt quality control, production, and placement at the National Center for Asphalt Technology to engineers from around the world.
